Please specify if you want a full house cleaning. Full house cleaning prices will be based on square footage of the home and hours spent cleaning. Please keep in mind that the larger the home, the more time is required for a full, professional and thorough cleaning job.

ie. a home that is 1000 sq feet and it only takes 3 hours to clean it, how much would it cost for cleaning?

Starting with an hourly rate. $30.00 an hour, multiply the time it takes to clean the house by your rate.
